

4430 - Internet & Technology Acceptable Use

Please read carefully before signing. In order to access and use the Technology, the network, and internet, students and staff must read this policy and submit a signed agreement form.

The School's Governing Authority realizes that the internet and technology can greatly supplement the School's educational mission. With these opportunities come challenges to use technology in a safe and educational manner. This policy has been adopted to ensure students and staff properly use the School's Technology.

All Technology must be used responsibly, ethically, and legally. Users that do not adhere to these rules—and the guidelines elaborating these rules—will have their technology and internet use privileges removed and will be subject to disciplinary action.

This policy extends beyond the School's grounds. This policy also applies when a user's Technology use disrupts or interferes with the School, regardless of where or when the violation takes place. Users may be at home or elsewhere and still be subject to this policy.

The term "Technology" includes, but is not limited to, computers, tablets, mobile electronic devices, printers, routers, other hardware, software, internet, intranet, network, electronic mail, cellular phones, **augmented reality glasses/devices**, iPOD/MP3/DVD/CD players, video recorders, data devices, video games, beepers, pagers, radios, and all other similar devices.

"Users" is defined to include any student, faculty, or staff member using the School's Technology.

Technology Use Guidelines

Unacceptable uses include, but are not limited to, the following:

- Violating Ohio and Federal law regarding:
 - students' and employees privacy rights,
 - copyright laws and all licensing agreements,
 - illegal downloading; installing; or accessing internet files; software, shareware; and freeware, and
 - all other applicable laws.
- Engaging in cyber-bullying.
- Using/accessing profane, obscene, pornographic, threatening or otherwise inappropriate language/materials which may be offensive or intended to harass/bully other users.
- Using technology for the following purposes: illegal activity, activity inconsistent with the School's mission, and activity prohibited by the School's policy manual.
- Gaining unauthorized access, "hacking," or attempting to gain unauthorized access.
- Sending or forwarding "spam" to a large group of users.
- Damaging or attempting to damage technology. Damaging includes, but is not limited to, physically damaging hardware, damaging or negatively affecting software, changing the settings without authorization, or disrupting the network.
- Using the School's technology for personal gain or profit.
- Sharing passwords or logging in to any system with credential other than one's own.

Use of Technology should conform to the following:

- Technology use is limited to educational purposes.
- Users shall use technology efficiently and courteously.

- Users shall exercise common sense and good judgment of what is permitted in a school environment.

If a user is unsure if his/her technology use conforms to these guidelines, the user shall ask the instructor before continuing with such use. If the user inadvertently violates the above guidelines, he/she should report it to the instructor immediately.

Use of Artificial Intelligence / Natural Language Processing Tools For School Work

The use of Artificial Intelligence (AI) and Natural Language Processing (NLP) tools (collectively, “AI/NLP tools”), without the permission of an instructor, is strictly prohibited for the completion of school work. If students receive permission from their instructor to use AI/NLP tools in school and for the completion of assignments, such tools shall be used in an ethical manner. Some examples of situations in which instructors have discretion to authorize students to use AI/NLP tools are for research assistance, data analysis, language translation, writing assistance and accessibility.

Accordingly, AI/NLP tools can be effectively used as a supplement to, not a replacement for, traditional learning methods. With prior permission, students can use said resources. If a student has any questions about whether they are permitted to use AI/NLP tools for a specific class assignment, they should ask their instructor.

Unauthorized use of AI/NLP tools is considered a form of plagiarism and any student found using these tools without permission or in a prohibited manner will be disciplined in accordance with the Student Code of Conduct.

Supervision and Monitoring

To ensure this policy is complied with and to ensure Technology works properly, the School will supervise and maintain Technology. Violations of this policy or the law may be uncovered during these processes. Should a user be found in violation, the user will be disciplined according to the Handbook’s policy on Student Discipline.

Filtering

The School recognizes that the internet can be both a source of helpful information and inappropriate materials for users. The school, in accordance with federal law, has taken reasonable steps to create an internet environment that is safe and appropriate for students. The School has filtered internet sites that may contain inappropriate information. As technology continues to evolve and the internet grows, however, the School will be unable to properly filter or detect all use and access.

All users and parents should be aware that because a site is not filtered it may still be inappropriate and not conform to this policy.

Disclaimer of Liability & Warranty

The School makes no warranties of any kind, either express or implied, that the Technology will free of errors, will meet any of the user’s specific requirements, or will be uninterrupted. The school is not liable for any direct or indirect, incidental, or consequential damages including, but not limited to, damage to the user’s technology, lost data, inability to use or access the system, or loss of any information connected with use. Use of any information obtained via the Internet is at the user’s own risk.

Signature

By signing below, I affirm that I have read and agree to abide by the Internet and Technology Acceptable Use Policy.
